

BEFORE THE  
POSTAL REGULATORY COMMISSION  
WASHINGTON, D.C. 20268-0001

ANNUAL COMPLIANCE REPORT, 2011

Docket No. ACR2011

UNITED STATES POSTAL SERVICE NOTICE OF FILING  
OF REVISIONS TO FY 2011 ANNUAL COMPLIANCE REPORT – ERRATA  
(February 2, 2012)

The United States Postal Service is today filing revisions to materials included in its Fiscal Year 2011 Annual Compliance Report. Specifically, the Postal Service is filing revised versions of the files “USPS-FY11-11 PER OC flats.xls” and “USPS-FY11-11 PER OC flats Alternate.xls” from folder USPS-FY11-11.

Within those files, in worksheets “5D” and “FSS,” in cells in rows 193 and 194 of columns K, W, AI, and AU, the formulas were originally divided by cell G6 (a check sum to insure that the proper number of pieces flow into and out of the model). In the revised versions filed today, the formulas are now divided by 10,000, which is the number of pieces that flow into each of the four segments of the model (BC/M, NBC/M, BC/NM, and NBC/NM). In the Standard Mail and First-Class Mail models, it remains appropriate to use cell G6, as all machinability types are modeled together, whereas in the Periodicals model they are modeled separately.

The impact of this error correction can be seen in the 'Summary' worksheet across multiple cost cells. No toggle switch is necessary as this is an error correction.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorneys:

Daniel J. Foucheaux, Jr.  
Chief Counsel, Pricing & Product Support

Nabeel R. Cheema
