RESPONSE OF UNITED STATES POSTAL SERVICE WITNESS NERI
TO GREETING CARD ASSOCIATION INTERROGATORY

GCA/USPS-T4-16

(a) Please explain whether your calculation of “an idle time reduction of 27 percent” (page 18, lines 10-11) is based on your eight-hour current window or witness Rosenberg’s 4 hour window.

(b) Please explain why a 27 percent reduction in idle time would require a 100 percent increase in the time allowed to process a single piece letter, that is, from one to two days.

RESPONSE:

(a-b) A correction to the testimony will be filed. The 27% figure refers to the total amount of idle time in the mail processing network as seen in Library Reference USPS-LR-N2012-1/10.
