

Docket No. N2012-1

USPS Library Reference N2012-1/85

**Materials in Support of USPS-LR-N2012-1/80, on Mail Processing
Equipment Maintenance**

PREFACE

Corresponding Non-Public Document

There is no corresponding non-public version of this data.

Purpose: This Library Reference updates the data provided in USPS-LR-N2012-1/67. As described in witness Bratta's supplemental testimony (USPS-ST-1), this library reference reflects the new mail processing equipment set described in USPS Library Reference USPS-LR-N2012-1/83. This library reference supports the revised estimates of processing equipment maintenance staffing provided in USPS-LR-N2012-1/80.

The data and files provided in this library reference are the same (except for updating) as provided in USPS-LR-N2012-1/67 with the following change. Data for the 21 NDCs are not included due to not being readily available. This library reference was provided without the NDC data given the need to provide this library reference without any further delay and since there were only relatively small changes made to NDC equipment sets due to Network Rationalization (and as shown in USPS-LR-N2012-1/80 there is not much change in LDC 36 authorized positions at NDCs). In addition, data for Juneau, AK is not included, since there is no WHEP data for Juneau, AK as it is not an eMARS site, it is an associate office of the Anchorage P&DC.

The data definitions and the sources described in the preface of USPS-LR-N2012-1/67 apply as well to this library reference. Data are provided in Excel spreadsheets, rather than in Access, but each file listed below has the same contents as the corresponding file in USPS-LR-N2012-1/67. Note, in the files *WHEP_SUM_BAS_UPDATE.xls* and *WHEP_SUM_PRO_UPDATE.xls* there are no data provided on HIGH_BAY_TOTAL, since that is only for NDCs.

Contents: This library reference consists of this PDF document plus the following excel spreadsheets files:

WHEP_SUM_BAS_UPDATE.xls; WHEP_SUM_PRO_UPDATE.xls;
WHEP_2C_BAS_UPDATE.xls; WHEP_2C_PRO_UPDATE.xls;
