Washington D.C. 20268

I am the owner of The UPS Store 5998 in Fargo, ND. I was made aware that the USPS has filed for "enhanced" post office box services under Docket No. MC2012-26. This would allow the USPS to offer identical services that I currently offer to my customers. Part of the unfair competitive advantage for the USPS is that they do not have to handle mail for six months after a box is closed, our customers cannot file a change of address form once they have discontinued a box, our customers do not get free mail forwarding and we must use a PMB or "#" in their address.

What the USPS is doing is fundamentally wrong. A financially viable Post Office is an important part of our business model, but not at our expense.

I appreciate your consideration.

Sincerely,

Debby Jaeger
