July 27, 2012

We've just been made aware that USPS will start receiving packages from all major carriers, which we believe is unfair to our small packaging and shipping business. This is an unfair practice because the monopoly of the US Postal Service will be taking away business from our small store.

We have supported the USPS through purchases of stamps and metered mail. In 2011 we spent approximately \$100,000 between stamp and metered mail purchases at no discounted costs.

Please reconsider your decision to accept mail parcels from UPS and FedEx. We would also like you to consider giving us a 5% discount on stamp and metered mail purchases.

Thank you,

A handwritten signature in black ink that reads "Roger Young". The signature is written in a cursive style with a long, sweeping underline that extends to the left.
