Re: Docket No. MC2012-26

I am opposed to the "Enhanced" Post Office Box Services proposed by the USPS.

As an owner and operator of a Commercial Mail Receiving Agency for twenty years, I have enjoyed a good working relationship with our local USPS staff. We have provided services to enhance those available at the post office. The proposed changes would allow the USPS to offer identical services, while continuing to offer services currently denied to PMB providers. This would provide an unfair competitive advantage to the USPS.

Please do not allow the USPS to implement these changes.

Thank you,

Skip Dahl, Owner
