**Comments of the**  
**American Catalog Mailers Association (ACMA)**

(December 4, 2012)

Pursuant to Order 1556 and Order 1541 directing the Postal Service to adjust Standard Flats pricing per the directive of the Postal Regulatory Commission outlined in the FY 2010 Annual Compliance Determination and elsewhere, the American Catalog Mailers Association appreciates the opportunity to comment on the US Postal Service's response to Order 1541.

Our assessment is that the USPS response on remand complies with the PRC directives on Standard Flats that the product be raised above the CPI average. The USPS does this without putting the catalog segment at undue risk, or creating the need to completely rearrange prices for other types of mail. We urge the Commission to accept it, as all parties understand that further uncertainty so close to the effective date is to be avoided.

Respectfully submitted,

The American Catalog Mailers Association, Inc.
