**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON CHANGES
IN RATES AND CLASSES OF GENERAL APPLICABILITY FOR COMPETITIVE PRODUCTS
(GOVERNORS' DECISION NO. 13-02)**

October 22, 2013

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices of general applicability for the Postal Service's shipping services (competitive products), and such changes in classifications as are necessary to define the new prices. The changes are described generally below, with a detailed description of the changes in the attachment. The attachment includes the draft Mail Classification Schedule sections with changes in classification language in legislative format, and new prices displayed in the price charts.

As shown in the nonpublic annex being filed under seal herewith, the changes we establish should enable each competitive product to cover its attributable costs (39 U.S.C. § 3633(a)(2)) and should result in competitive products as a whole complying with 39 U.S.C. § 3633(a)(3), which, as implemented by 39 C.F.R. § 3015.7(c), requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)). We therefore find that the new prices and classification changes are in accordance with 39 U.S.C. §§ 3632-3633 and 39 C.F.R. § 3015.2.

I. Domestic Products

A. Priority Mail Express

Overall, the Priority Mail Express price change represents a 3 percent increase. The existing structure of zoned Retail, Commercial Base, and Commercial Plus price categories is maintained. A new Zone 9 is added for mailings to and from the Freely Associated States (Micronesia, Marshall Islands, and Palau). Additionally, a 10:30am delivery time option will be added for \$5.00.

Retail prices will increase an average of 3.1 percent. The price for the Retail Flat Rate Envelope, Padded Flat Rate Envelope, and Legal Flat Rate Envelope, a significant portion of all Priority Mail Express volume, is increasing four cents to \$19.99. The Flat Rate Box price will increase from \$39.95 to \$44.95.

The Commercial Base price category offers lower prices to customers who use online and other authorized postage payment methods. The Commercial Base prices will increase 2.9 percent.

The Commercial Plus price category offers even lower prices to large-volume customers. Commercial Plus prices, as a whole, will receive a 0.6 percent increase. A fee of 20 cents per piece will be assessed on any commercial parcels that lack an Intelligent Mail Package Barcode (IMpb).

B. Priority Mail

The existing structure of Priority Mail Retail, Commercial Base, and Commercial Plus price categories is maintained. A new Zone 9 is added for mailings to and from the Freely Associated States (Micronesia, Marshall Islands, and Palau).

Retail Flat Rate Box prices will be: Small, \$5.80; Medium, \$12.35; Large, \$17.45; and Large APO/FPO/DPO, \$15.45. The regular Flat Rate Envelope will be priced at \$5.60, with the Legal Size and Padded Flat Rate Envelopes priced at \$5.75 and \$5.95, respectively.

The Commercial Base price category offers lower prices to customers using online and other authorized postage payment methods.

The Commercial Plus price category offers even lower prices to large-volume customers. This price category will continue to contain Critical Mail letters and flats, a half pound price, an assortment of Flat Rate packaging, and Commercial Plus Cubic pricing. New for January, the minimum annual volume threshold for cubic pricing and other Commercial Plus offerings will be lowered to 50,000 packages. Finally, a fee of 20 cents per piece will be assessed on any commercial parcels that lack an Intelligent Mail Package Barcode (IMpb).

For destination entered parcels, the average price increases are 8.0 percent for parcels entered at a destination delivery unit (DDU), 5.6 percent for parcels entered at a destination plant (DSCF) and 5.1 percent for parcels entered at a destination Network Distribution Center (DNDC).

For non-destination entered parcels, the average price increase is 5.9 percent. Prices for Lightweight Parcel Select, formerly Standard Mail commercial parcels, will increase by 10.1 percent.

Retail Balloon Price

In Zones 1-4 (including local), parcels weighing less than 20 pounds but measuring more than 84 inches in combined length and girth (but not more than 108 inches) are charged the applicable price for a 20-pound parcel.

Retail Dimensional Weight

In Zones 5-8, parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 194.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 194, and multiplying by an adjustment factor of 0.785.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the Postal Service hereby applies for non-public treatment of the attributable cost, contribution, and cost coverage data in the unredacted version of the annex to Governors' Decision No. 13-2, as well as the supporting materials for those data, which include disaggregated product volume, weight, and revenue distribution information by price cell. The materials consist of spreadsheets that contain calculations to determine the weighted average price increase and cost coverage for each competitive product within the scope of this docket. The Postal Service hereby furnishes the justification required for this application by each subsection of 39 C.F.R. § 3007.21(c), as enumerated below. For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials. The Postal Service is concurrently filing redacted versions of these files, where it has determined redactions to be practicable.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

The materials designated as non-public consist of information of a commercial nature, which under good business practice would not be publicly disclosed. In the Postal Service's opinion, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3).¹ Because the portions of the materials which the Postal Service is applying to file only under seal fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

¹ In appropriate circumstances, the Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A). The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

- (2) Identification, including name, phone number, and email address for any third-party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;**

The Postal Service believes that postal operators whose governments are members of the UPU are third parties that may have a proprietary interest in the materials submitted. Because a great deal of sensitive information involves the exchange of mail with Canada Post, the Postal Service will undertake to inform Canada Post Corporation (Canada Post), in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service identifies Ewa Kowalski, Director, International Mail Settlement and USPS Relations, Canada Post Corporation, as the appropriate contact on behalf of Canada Post. Ms. Kowalski's telephone number is (613) 734-6201, and her email address is ewa.kowalski@canadapost.ca. Canada Post has requested that any communications regarding confidential treatment of these materials be sent with a courtesy copy to Dennis Jarvis, General Manager, International Product Management, Canada Post Corporation. Mr. Jarvis's telephone number is (613) 734-8149, and his email address is dennis.jarvis@canadapost.ca.²

Due to language and cultural differences as well as the sensitive nature of the Postal Service's rate relationship with the affected foreign postal operators, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices to all other relevant postal operators.³ The Postal Service

² In the event of a request for early termination of non-public treatment under 39 C.F.R. § 3007.31, a preliminary determination of non-public status under 39 C.F.R. § 3007.32, or a request for access to non-public materials under 39 C.F.R. § 3007.40, the Postal Service notes, on Canada Post's behalf, that differences in the official observation of national holidays might adversely and unduly affect Canada Post's ability to avail itself of the times allowed for response under the Commission's rules. In such cases, Canada Post has requested that the Postal Service convey its preemptive request that the Commission account for such holidays when accepting submissions on matters that affect Canada Post's interests. A listing of Canada's official holidays can be found at <http://www.pch.gc.ca/pgm/ceem-cced/jfa-ha/index-eng.cfm>.

³ The Postal Service acknowledges that 39 C.F.R. § 3007.21(c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's response might be construed as beyond the scope of this exception, the Postal Service respectfully requests a waiver that would allow it to designate a Postal Service employee as the contact person under these circumstances, in light of the practical considerations outlined herein.

identifies as an appropriate contact person, on behalf of relevant postal operators, Lea Emerson, Executive Director, International Postal Affairs. Ms. Emerson's phone number is (202) 268-2574, and her email address is lea.emerson@usps.gov. In view of the language and practical difficulties, the Postal Service has not undertaken to inform all affected postal operators about the nature and scope of this filing and about the ability to address any confidentiality concerns directly with the Commission as provided in 39 C.F.R. § 3007.20(b), other than Canada Post Corporation. To the extent that the Postal Service's filing in the absence of actual notice might be construed as beyond the scope of the Commission's rules, the Postal Service respectfully requests a waiver that would allow it to forgo providing a notice to each postal operator. It is impractical to communicate with dozens of operators in multiple languages about this matter.

The Postal Service also believes that FedEx Express may have a proprietary interest in some of the data concerning Global Express Guaranteed (GXG) in the materials submitted.⁴ The Postal Service will undertake to inform FedEx Express, in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service identifies James H. Ferguson, Corporate Vice President, Customer and Business Transactions, FedEx Corporation & General Counsel, FedEx Corporate Services, Inc., as the appropriate contact on behalf of FedEx Express. Mr. Ferguson's telephone number is (901) 434-8600, and his email address is jferguson1@fedex.com.

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

The redacted information consists of the projected FY 2014 attributable cost, contribution, and cost coverage for each competitive product that is the subject of this docket. The Postal Service has filed information concerning the calculations used to develop the weighted average price increase by product and cost coverage. Protected information in the spreadsheets includes volume and revenue by price cell (weight

⁴ Although FedEx Express might have a proprietary interest in data reflecting charges between the Postal Service and FedEx Express and possibly data showing volume or weights for GXG, the Postal Service maintains that the Postal Service is the only party with a proprietary interest in revenue data reflecting GXG transactions between the Postal Service and its customers.

increment and zone or country group), as well as product-specific cost data and other supporting data. Such information for competitive product categories is commercially sensitive at the disaggregated, cell-specific level shown in the spreadsheets.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If competitors of the Postal Service were to have access to this information, they would likely focus their marketing and price cutting efforts on the Postal Service's most profitable products. This will lead to erosion of contribution of these products through lost sales and/or the need to lower prices to compete. Postal product cost and contribution information would provide suppliers of postal transportation and other services with information they could use to seek higher rates for services they provide. This would lead to higher postal costs and loss of contribution. Although the extent of the commercial harm is difficult to quantify, given that Shipping Services is a multi-billion dollar enterprise, even a small change in market share, prices, or costs could lead to millions of dollars in lost revenue, higher costs, and lower contribution margins. It is highly likely that if this information were made public, the Postal Service's competitors and suppliers would take advantage of it almost immediately.

Competitors could use the product-specific revenue, pieces, and weight information to analyze the Postal Service's possible market strengths and weaknesses and to focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Disclosure of this information would also undermine the Postal Service's position in negotiating favorable terms with potential customers, who would be able to ascertain critical information about relevant product trends (e.g., average revenue per piece, average weight per piece).

Disclosure would also expose certain foreign postal operators and other customers to the same competitive harms, to the extent that a category is associated with a single customer or a small group of customers. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the material filed nonpublicly. Disclosure of statistical and cost information about GXG could limit the ability of FedEx Express, a supplier to the Postal Service, to negotiate

effectively and could allow competitors to analyze the traffic for a competitive advantage against FedEx Express. The more disaggregated nature of the product information in the international context, and the relatively small numbers associated with information makes the international data particularly vulnerable to analysis and use by competitors.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Identified harm: Competitors could use product cost, contribution, or cost coverage information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment.

Hypothetical: Cost, contribution and/or cost coverage information is released to the public and available to a competitor. The competitor assesses the profitability of certain services based on the data released. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service has substantial contribution, thereby hindering the Postal Service's ability to maintain these customers.

Identified harm: Competitors could use disaggregated product volume, weight, and revenue distribution information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment, and also during negotiations with the Postal Service.

Hypothetical: Disaggregated revenue, volume, and weights contained in the Nonpublic Annex are disclosed to the public. Another delivery service's employee monitors the filing of this information and passes it along to the firm's sales and marketing functions. The competitor assesses the profitability of certain services on a per-piece or per-pound basis or the Postal Service's relative concentration in certain service offerings. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service appears to have made headway, hindering the Postal Service's ability to reach out effectively to these customers. In addition, a foreign postal operator's employee could monitor the filing of this information and pass the information along to the international postal relations functions of that foreign postal operator. The foreign postal operator assesses the

Postal Service's average per-item revenue for categories about which it is negotiating with the Postal Service. Accurately or not, the foreign postal operator uses the average revenue information as a justification for pricing demands in negotiations. The Postal Service's ability to negotiate suffers as a result.

Identified harm: Public disclosure of information contained in the Nonpublic Annex associated with international delivery services provided in arrangement with specific third parties would be used by those parties' competitors to their detriment.

Hypothetical: A competitor of Canada Post Corporation, such as a competing international delivery service, obtains information contained in the Nonpublic Annex. The competitor uses the information to assess the market potential and, as a baseline, to negotiate with other parties to develop lower-cost alternatives and undermine Canada Post's market offerings. The same scenario could apply with respect to comparable information for other foreign postal operators or for FedEx Express concerning GXG.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the market for domestic parcel shipping products and in the market for international delivery products (including both private sector integrators and foreign postal operators), as well as their consultants and attorneys. Additionally, suppliers of transportation or other services to the Postal Service that affect costs for competitive services should not have access to these materials; this restriction should include their consultants and attorneys. Also, the Postal Service believes that foreign postal operators, as well as actual or potential customers of a postal operator for this or similar products should not be provided access to the non-public Excel worksheets.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof; and

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the

Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
