Special Services Cap Compliance

NOTE: Revisions of 11/13/13 are explained in **bold** at the end of this Preface.

Preface

A. Overview of the Workpapers

The Special Services workpapers consist of this preface and two Excel workbooks: CAPCALC-SpecServ-R2013-10.xls and CAPCALC-INTLSpecServ-R2013-10.xls.

CAPCALC-SpecServ-R2010-4R.xls takes the results from CAPCALC-INTLSpecServ-R2010-4R.xls, and determines cap compliance for domestic and international market dominant special services combined.

CAPCALC-SpecServ-R2010-4R.xls contains individual worksheets for each special service, as well as the following worksheets.

- The “Cap Calc Page” and the “Cap Detail Page” worksheets calculate the amount of the price change for each of the special services.
- The “Cap Amount and Bank” worksheet shows how much cap was available, how much was used, and how much will be unused for Special Services, following the special services price changes.
- The “Prices” worksheet shows the current and new prices for each special service; each of the sheets for the individual special services is dynamically linked to this sheet for its price information.
- The “Hardcoded Data” worksheet contains data that are used on each sheet.
- The “Index” and “CoverPage” worksheets are the index of the workbook and the cover page for this document, respectively.

CAPCALC-INTLSpecServ-R2010-4R.xls contains the “Cap Calculation” worksheet, which summarizes the price changes for the market dominant international special services.

B. Adjustments to the Billing Determinants

No adjustments were made to the Billing Determinants for this filing.

Revisions of 11/13/13:

In the domestic spreadsheet, a formula error in Cells F28:F62 was corrected on the “Insurance” tab. This correction caused Cells I28:J63, F67, I67:J67 on the “Insurance” tab and Cells C4:D4 and C18:E18 on the “Change Calc” tab to change. The tabs that change are highlighted in yellow, and within those tabs the cells that change are highlighted in yellow as well. There are no changes in the international spreadsheet.
