Re: Careywood Post Office  
Case # A2015-2

Dear Ms. Grove:

The people of Careywood need a post office here in the community. It is a hardship to have to go to another county. I am functionally blind and cannot drive a car. I can reach the Careywood post office without having to drive, but now I cannot pick up packages....and I receive many items via the mail. Please re-negotiate the contract for our local post office.
