**NOTICE OF UNITED STATES POSTAL SERVICE OF FILING A
FUNCTIONALLY EQUIVALENT GLOBAL EXPEDITED PACKAGE SERVICES 3
NEGOTIATED SERVICE AGREEMENT AND APPLICATION FOR NON-PUBLIC
TREATMENT OF MATERIALS FILED UNDER SEAL**

(November 10, 2015)

In accordance with 39 C.F.R. § 3015.5 and Order No. 86,¹ the United States Postal Service (Postal Service) hereby gives notice that it is entering into a Global Expedited Package Services (GEPS) contract. Prices and classifications not of general applicability for GEPS contracts were previously established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Expedited Package Services Contracts, issued May 6, 2008 (Governors' Decision No. 08-7).² Subsequently, GEPS 3 was added to the competitive product list, and the contract filed in Docket No. CP2010-71 serves as the baseline agreement for comparison of potentially functionally equivalent agreements under the GEPS 3 grouping.³ The Postal Regulatory Commission (Commission) determined that

individual GEPS contracts may be included as part of the GEPS 3 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the previously submitted GEPS contracts.⁴

The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission. A redacted copy of the contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) for the contract, and Governors' Decision No. 08-7 are filed as Attachments 1, 2, and 3, respectively. Attachment 4 to this Notice is the Postal Service's Application for Non-public Treatment of materials filed under seal in this docket. A full discussion of the required elements of the application appears in Attachment 4.

I. Background

The first GEPS contract was filed on May 20, 2008.⁵ Subsequently, the Commission reviewed many additional GEPS contracts with minor differences which did not affect the contracts' similarity with the cost and market characteristics of previous GEPS contracts.

The Postal Service demonstrates below that the agreement that is included with this filing is functionally equivalent to the contract that is the subject of Docket No. CP2010-71. Accordingly, this contract should be included within the GEPS 3 product.

II. Identification of the Additional GEPS 3 Contract

The Postal Service believes that this additional GEPS contract fits within the Mail Classification Schedule (MCS) language included as Attachment A to Governors'

⁴ *Id.*

⁵ Notice of United States Postal Service of Filing a Global Expedited Package Services Contract, Docket No. CP2008-5, May 20, 2008.

Decision No. 08-7, but as revised and updated in the most recent draft working copy of the MCS available on the Commission's website.⁶

This additional GEPS 3 contract is intended to become effective on December 1, 2015, after the expiration of the customer's GEPS 3 contract that was the subject of Docket No. CP2014-78, which is scheduled to expire on November 30, 2015.⁷ If the effective date of the agreement is the first of the month, the agreement that is the subject of this docket is set to expire one year after its effective date. If the effective date of the agreement is not the first of the month, the agreement is set to expire on the last day of the month in which the effective date falls in the year subsequent to the effective date.

III. Functional Equivalency of GEPS 3 Contract

This GEPS 3 contract is substantially similar to the contract filed in Docket No. CP2010-71. The contract shares similar cost and market characteristics with that contract. In Governors' Decision No. 08-7, the Governors established a pricing formula and classification that ensure that each GEPS contract meets the criteria of 39 U.S.C. § 3633 and the regulations promulgated thereunder. Therefore, the costs of each contract conform to a common description. In addition, the GEPS language proposed for the MCS requires that each GEPS contract must cover its attributable costs. The contract at issue here meets the Governors' criteria and thus exhibits similar cost and market characteristics to the previous GEPS contracts.

⁶ See PRC, (Draft) Mail Classification Schedule, posted June 4, 2015 (with revisions through: November 2, 2015), available at <http://www.prc.gov/sites/default/files/mcs/MCSRedline11022015.docx>

⁷ PRC Order No. 2773, Order Granting Motion for Temporary Relief, Docket No. CP2014-78, October 20, 2015.

The functional terms of the contract at issue are the same as those of the contract that is the subject of Docket No. CP2010-71, which serves as the baseline agreement for the GEPS 3 product grouping. The benefits of the contract to the Postal Service are comparable as well. Therefore, the Postal Service submits that the contract is functionally equivalent to the contract that is the subject of CP2010-71 and should be added to the competitive product list as a GEPS 3 contract.

In a concrete sense as well, this GEPS contract shares the same cost and market characteristics as the previous GEPS contracts. Customers for GEPS contracts are small- or medium-sized businesses that mail products directly to foreign destinations using Priority Mail Express International, Priority Mail International, or both. Prices offered under the contracts may differ depending on the volume or postage commitments made by the customers. Prices also may differ depending upon when the agreement is signed, due to the incorporation of updated costing information. These differences, however, do not alter the contracts' functional equivalency. Because the agreement incorporates the same cost attributes and methodology, the relevant characteristics of this GEPS contract is similar, if not the same, as the relevant characteristics of previously filed GEPS contracts.

Like the contract that is the subject of Docket No. CP2010-71, this contract also fits within the parameters outlined by the Governors' Decision establishing the rates for GEPS agreements. There are, however, differences between this contract and the contract that is the subject of Docket No. CP2010-71, which include:

- The name and address of the customer in the title and first paragraph of the agreement;

- Revision of the second and third WHEREAS paragraphs that appear on the first page of the CP2010-71 agreement;
- References to “Priority Mail Express International” instead of “Express Mail International” in the agreement;
- Revisions to Article 2 Option A concerning postage payment through a PC Postage Provider;
- Revisions to Article 2, Article 6 paragraph (2), Article 7 paragraph (7), and Article 10 paragraph (3) of the CP2010-71 agreement, concerning Option B, which involves postage payment through a permit imprint using USPS-provided Global Shipping Software;
- A revised Article 4 concerning Qualifying Mail;
- An additional Article 5 paragraph (3) and Article 6 paragraph (3) concerning Priority Mail International Qualifying Mail destined to China;
- In Article 6 paragraph (1) additional requirements for mailings processed using software provided by a USPS-approved PC Postage Provider;
- A revision to Article 8 paragraph (1) concerning payment of postage according to the price charts in Annex 1 of the agreement;
- A revision of Article 8 paragraph (3) concerning customs and export requirements;
- In Article 8, an additional paragraph (4) concerning tender, an additional paragraph (6) concerning penalties, and an additional paragraph (7) concerning advance notification;

- A revised Article 9 paragraph (1) concerning advance notification to USPS under Option A;
- A revised option for tendering the mail in Article 9 paragraph (2) and Article 10 paragraph (2);
- The negotiated minimum revenue commitment contained in Article 11, paragraph (1);
- A revision to Article 12 concerning the term of the agreement;
- A revision to Article 13 concerning the enforceability of penalties if the agreement is terminated;
- The Modification of the Agreement article was moved to Article 14, which caused subsequent articles to be renumbered;
- The deletion of the article concerning no service guarantee, which caused subsequent articles to be renumbered;
- A revised Article 15 concerning postage updates
- Minor revisions to Article 17 concerning the entire agreement and survival;
- In Article 19, the addition of a reference to PRC docket numbers concerning the Annual Compliance Report, in which the Postal Service may file confidential information related to this agreement;
- An additional Article 21 concerning Intellectual Property, Co-Branding, and Licensing;
- A revised Article 22 concerning limitation of liability;
- A revised Article 23 concerning indemnity;

- The Conditions Precedent article was moved to Article 31, which caused some articles to be renumbered;
- A revised Article 29 concerning mailability, exportability, and importability;
- An additional Article 30 concerning Warranties and Representation, which caused some subsequent articles to be renumbered; and
- The identification of the customer's representative to receive notices under the agreement in Article 32 and the identity of the signatory to the agreement; and
- A revised Annex 1.

The Postal Service does not consider that the specified differences affect either the fundamental service the Postal Service is offering or the fundamental structure of the contract. Nothing detracts from the conclusion that this agreement is “functionally equivalent in all pertinent respects”⁸ to the contract that is the subject of Docket No. CP2010-71.

Conclusion

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that this GEPS 3 contract is in compliance with the requirements of 39 U.S.C. § 3633. In addition, the contract is functionally equivalent to the baseline contract that is the subject of Docket No. CP2010-71. Accordingly, the contract should be added to the GEPS 3 product grouping.

(1) The liability of the USPS under this Agreement shall be limited to the refund of postage for Qualifying Mail that is lost or destroyed in bulk after being tendered to the USPS and prior to being received by the delivery authority outside of the United States. The USPS shall not be liable for any actual or consequential damages suffered by the Mailer as a result of late delivery or non-delivery of any Qualifying Mail. (2) The USPS shall not be liable for any loss or expense, including, but not limited to fines and penalties, for the Mailer's or any other person's failure to comply with any export laws, rules, or regulations. (3) The USPS shall not be liable for any act or omission by any person not employed or contracted by the USPS, including any act or omission of the Mailer, the Mailer's customer, or the recipient of an item tendered under this Agreement. (4) Priority Mail Express International and Priority Mail International Qualifying Mail mailed under this Agreement are not guaranteed against delay in delivery. Neither indemnity payments nor postage refunds will be made in the event of delay. (5) Unless otherwise specified by notice published in a future issue of the *Postal Bulletin* that a date-certain, postage-refund guarantee will be offered for this particular type of Global Customized Mail Agreement, Priority Mail Express International With Money-Back Guarantee Service Qualifying Mail mailed under this agreement is not guaranteed against delay in delivery, and neither indemnity payments nor postage refunds will be made in the event of delay. (6) The USPS bears no responsibility for the refund of postage for Qualifying Mail in connection with actions taken by Customs authorities.

23. Indemnity. The Mailer shall indemnify and save harmless the USPS and its officers, directors, agents, and employees from any and all claims, losses, costs, damages, or expenses or liabilities, including but not limited to penalties, fines, liquidated damages, charges, taxes, fees, duties, or other money due ("Claims") growing out of or connected in any other way with the discharge by the Mailer or its agent(s) of any undertaking contained in this Agreement, including Claims that result from the noncompliance of the Mailer with the laws of the United States and other countries.

24. Governing Law. This Agreement shall be governed by, construed, and enforced in accordance with United States federal law.

25. Suspensions of Mail Service. In the event that a suspension of either Priority Mail Express International or Priority Mail International service from the United States to a country would prevent delivery of Qualifying Mail to addressees in that country, the Mailer shall not tender Priority Mail Express International or Priority Mail International, as appropriate, to the USPS until service is restored. The annualized minimum commitment for Qualifying Mail set forth in Article 11 shall be recalculated pro rata to reflect the reduction in available service time.

26. Assignment. The rights of each Party under this Agreement are personal to that Party and may not be assigned or transferred to any other person, firm, corporation, or other entity without the prior, express, and written consent of the other Party.

27. No Waiver. The failure of either Party to this Agreement to insist upon the performance of any of the terms and conditions of this Agreement, or the waiver of any breach of the terms and conditions of this Agreement, shall not be construed as thereafter waiving any such terms and conditions, but these shall continue and remain in full force and effect as if such forbearance or waiver had not occurred.

28. Paragraph Headings and Reference Citations. The titles to the paragraphs of this Agreement are solely for the convenience of the Parties and shall not be used to explain, modify, simplify, or aid in the interpretation of the provisions of this Agreement. All citations to provisions in the DMM, IMM or Code of Federal Regulations within this Agreement are intended to refer to the substantive information found within the cited section(s) at the time this Agreement was drafted. Subsequent changes to the citations or the relevant substantive information due to published revisions of the DMM, IMM or Code of Federal Regulations shall be applicable to this Agreement upon the effective date of such revisions.

(1) All items mailed under this Agreement must conform to the mailability requirements of the USPS as detailed in the IMM 130 and USPS Publication 52; all applicable United States laws and regulations, including export control and customs laws and regulations; and all applicable importation restrictions of the destination countries. For each item mailed under this Agreement, the Mailer is responsible for notifying the Mailer's Customers of their responsibility for determining export and import requirements, obtaining any required licenses and permits, and ensuring that the recipient of the item is authorized by the laws of the United States

Confidential

Certification of Prices for the Global Expedited Package Services Contract with
[REDACTED]

I, Joseph Hurley, Acting Manager of Regulatory Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the prices for the Global Expedited Package Services Contract with [REDACTED]. The prices contained in this Contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Expedited Package Services Contracts, issued May 6, 2008 (Governors' Decision No. 08-7), which established prices by means of price floor and ceiling formulas.

I hereby certify that the numerical cost values underlying the prices in the [REDACTED] contract are the appropriate costs to use in the formulas and represent the best available information. The prices, resulting in a cost coverage of in excess of the minimum required by the Governors' Decision, exclusive of pickup on demand and international ancillary services fees, are in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The prices demonstrate that the Contract should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. International competitive mail accounts for a relatively small percentage of the total contribution by all competitive products. Contribution from Global Expedited Package Services Contracts should be even smaller. The Agreement with [REDACTED] should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE
ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR GLOBAL EXPEDITED PACKAGE
SERVICES CONTRACTS (GOVERNORS' DECISION NO. 08-7)**

May 6, 2008

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices. This decision establishes prices by setting price floor and price ceiling formulas for Global Expedited Package Services Contracts. The types of contracts to which these prices will apply are described in Attachment A, the price floor and price ceiling formulas are specified in Attachment B, and management's analysis of the appropriateness of these formulas is explained in Attachment C. We have reviewed that analysis and have concluded that the prices emerging from application of the formulas and the classification changes are in accordance with 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. Contracts which fall within the terms specified in Attachment A, and whose prices fall within the price range established by the price floor and price ceiling formulas specified in Attachment B, are hereby authorized.

The PAEA provides that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. We have determined that prices established according to the formulas listed in Attachment B would be appropriate for the services covered by the types of GEPS Contracts classified in Attachment A.¹ Management's analysis of the formulas, included as

¹ The classification for GEPS Contracts is contained in the Mail Classification Schedule language originally proposed by the Postal Service, as modified in Attachment A. See United States Postal Service Submission of Additional Mail Classification Schedule Information in Response to Order

Attachment C, supports our decision to establish prices through such formulas for the specified types of contracts.

We are satisfied that the prices established by the formulas in Attachment B meet the applicable statutory and regulatory requirements. The price floor formula provides greater than 100 percent coverage of the costs attributable to each of these types of agreements. We accept and rely upon the certification in Attachment D that the correct cost inputs for the formulas have been identified. In addition, the price floor formula

[REDACTED] should cover the agreements' attributable costs and provide a contribution toward the Postal Service's institutional costs. The formula should thus prevent a cross-subsidy from market dominant products. As noted in the certification in Attachment D, entry into agreements pursuant to this Decision should not impair the ability of competitive products as a whole to cover an appropriate share of institutional costs.

No agreement authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 C.F.R. § 3015.5. The notice must include a financial analysis that demonstrates that the agreement covers its attributable costs, based on [REDACTED] Attachment B. The notice must also include a certification from a Postal Service official that the numerical values chosen for each agreement are appropriate, in that they represent the best available information and that the agreement should not result in a cross-subsidy from market dominant products and should not impair the ability of competitive products, as a whole, to cover an appropriate share of institutional costs.

ORDER

In accordance with the foregoing Decision of the Governors, the formulas set forth herein, which establish prices for the applicable GEPS Contracts, and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within the formulas set by this Decision and the certification process specified herein is followed. After an authorized agreement is entered into, the Postal Service shall comply with all applicable statutory and regulatory requirements.

Prices and classification changes established pursuant to this Decision will take effect fifteen days after the date on which the agreement is filed with the Postal Regulatory Commission.

Certification as to the Formulas for Prices Offered Under Applicable Global Expedited Package Services Contracts

I, W. Ashley Lyons, Manager, Corporate Financial Planning, Finance Department, United States Postal Service, am familiar with the price floor formula and price ceiling formula for Global Expedited Package Services Contracts which are set forth in Attachment B.

I hereby certify that these formulas adequately represent all necessary [REDACTED] [REDACTED] If the Postal Service were to enter into agreements that set prices above the price floor, the Postal Service would be in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The price floor formula is designed to ensure that each agreement should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. In Fiscal Year 2007, all outbound international competitive mail accounted for approximately 11 percent of the total contribution by all competitive products. Contribution from Global Expedited Package Services Contracts should be much smaller. Even if all the agreements for Global Expedited Package Services Contracts are signed at the price floor, they should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

ATTACHMENT 4

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to an additional Global Expedited Package Services (GEPS) contract that the Postal Service believes is functionally equivalent to previously filed GEPS agreements. The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission, although a redacted copy of the contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) for the contract, and the related Governors' Decision are filed with the Notice as Attachments 1, 2, and 3, respectively.¹

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The Commission may determine the appropriate level of confidentiality to be afforded to

¹ The Postal Service informed the customer for the contract prior to filing a notice that the Postal Service would be seeking non-public treatment of the redacted portions of the contract. The Postal Service also informed the customer for the contract that it could file its own application for non-public treatment of these materials in accordance with 39 C.F.R. § 3007.22.

such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).² Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support the Postal Service's determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of GEPS contracts, the Postal Service believes that the third parties with a proprietary interest in the materials are the customer with whom the contract is made and the PC Postage Provider(s) if the customer intends to use a PC Postage Provider.³ The Postal Service maintains that customer identifying information should be

² The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

³ However, other postal operators can be considered to have a proprietary interest in some rate information in the financial workpapers included with this filing. The Postal Service maintains that such information should be withheld from public disclosure. In view of the practical difficulties, the Postal Service has not undertaken to inform all affected postal operators about the nature and scope of this filing and about the ability to address any confidentiality concerns directly with the Commission as provided in 39 C.F.R. § 3007.20(b). Due to language and cultural differences as well as the sensitive nature of the Postal Service's rate relationship with the affected foreign postal operators, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices to the relevant postal operators. The Postal Service identifies as an appropriate contact person Haley McKittrick, EMS Manager, International Postal Relations. Ms. McKittrick's phone number is (202) 268-4315, and her email address is Haley.E.Mckittrick@usps.gov. The Postal Service acknowledges that 39 C.F.R. § 3007.21(c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's filing in the absence of actual notice might be construed as beyond the scope of the Commission's rules, the Postal Service respectfully requests a waiver that would allow it to forgo providing a notice to each postal operator, and to designate a Postal Service

withheld from public disclosure. Therefore, rather than identifying the customer for the contract that is the subject of this docket, the Postal Service gives notice that it has already informed the third parties with a proprietary interest in the materials for the contract that is the subject of this docket, in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and their ability to address their confidentiality concerns directly with the Commission. The Postal Service employee responsible for providing notice to the third parties with proprietary interest in the materials filed in these dockets is Ms. Kathy L. Lynch, Sales Support Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 5425, Washington, DC 20260-4017, whose email address is kathy.l.lynch@usps.gov, and whose telephone number is 202-268-6662.

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with its Notice filed in this docket, the Postal Service included a contract, financial workpapers, and a statement for the contract certifying that the agreement should meet the requirements of 39 U.S.C. § 3633(a)(1), (2), and (3). These materials were filed under seal, with redacted copies filed publicly, after notice to the customer. The Postal Service maintains that the redacted portions of the contract, related financial information, and identifying information concerning the GEPS customer, should remain confidential.

With regard to the GEPS agreement filed in this docket, the redactions on page 1, to the footers of each page, to the Articles that include the name and address of the

employee as the contact person under these circumstances, since it is impractical to communicate with dozens of operators in multiple languages about this matter.

customer to which notices or demand should be sent, and to the signature block of the contract constitute the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2). The redacted portions of the footers of the Annex also protect the customer's identifying information from disclosure.

Other redacted information in the agreement includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, various penalties, and the percentage of cost increase which may trigger a consequential price increase.

The redactions made in the Annex of the contract, other than those involving the customer's name, withhold the actual prices that are being offered to the customer in exchange for its commitments and performance of its obligations under the terms of the agreement.

The redactions applied to the financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the mailing profile of the customer, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b). However, in a limited number of cases, narrative passages, such as words or numbers in text, were replaced with general terms describing the redacted material. For example, where the mailer's name appears in the spreadsheet within a cell, it has been replaced by the word "Mailer." Likewise, where an actual number appears as a

percentage discount as a column header, in the public filing the number is replaced by the word “Discount” and followed by the percentage symbol (e.g., Discount%).

To the extent that the Postal Service files data in future filings that will show the actual revenue and cost coverage of the customer’s completed contract, the Postal Service will redact in its public filing all of the values included that are commercially sensitive information and will also protect any customer identifying information from disclosure.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the portions of the contract that the Postal Service determined to be protected from disclosure due to its commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. First, revealing customer identifying information would enable competitors to focus marketing efforts on current postal customers which have been cultivated through the efforts and resources of the Postal Service. The Postal Service considers that it is highly probable that if this information were made public, the Postal Service’s competitors would take immediate advantage of it. The GEPS agreements include a provision allowing the mailer to terminate the contract without cause by providing at least 30 days’ notice. Therefore, there is a substantial likelihood of losing the customers to a competitor that targets them with lower pricing.

Other redacted information in this Agreement (which is included as Attachment 1 to this notice) includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customers, various penalties and the percentage of cost increase which may trigger a consequential price increase. This information is

commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the information to assess the offers made by the Postal Service to its customers for any possible comparative vulnerabilities and focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, other potential customers could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The financial workpapers include specific information such as costs, assumptions used in pricing formulas, the formulas themselves, mailer profile information, projections of variables, contingency rates included to account for market fluctuations and the exchange risks. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing. Unlike its competitors, the Postal Service is required by the mail classification schedule to demonstrate that each negotiated agreement within this group covers its attributable costs. Furthermore, the Postal Service's Governors have required that each contract be submitted to the Commission with a notice that complies with 39 C.F.R. § 3015.5.⁴ Thus, competitors would be able to take advantage of the information to offer lower pricing to the GEPS customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the expedited package services market. Given that these spreadsheets are filed in their native format,

⁴ Decision of the Governors of the United States Postal Service On The Establishment of Prices and Classifications for Global Expedited Package Services Contracts, May 6, 2008 (Governors' Decision No. 08-7), at 2-3 and Attachment A.

the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in the contract or from the information in the workpapers whether additional margin for net profit exists between the contract being filed and the contribution that GEPS contracts must make. From this information, the customer could attempt to negotiate ever-increasing incentives, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even the customer involved in this GEPS filing could use the information in the workpapers in an attempt to renegotiate its own rates by threatening to terminate its current agreement, although the Postal Service considers this risk to be lower in comparison to those previously identified.

Price information in the contract and its financial spreadsheets also consists of sensitive commercial information of the customer. Disclosure of such information could be used by competitors of the customer to assess its underlying costs, and thereby develop a benchmark for the development of a competitive alternative.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Identified harm: Revealing customer identifying information would enable competitors to target the customers for sales and marketing purposes.

Hypothetical: The identity of the customer in a GEPS contract is revealed to the public. Another expedited delivery service has an employee monitoring the filing of GEPS agreements and passing along the information to its sales function. The competitor's sales representatives can then quickly contact the Postal Service's customer and offer

the customer lower rates or other incentives to terminate its contract with the USPS in favor of using the competitor's services.

Identified harm: Public disclosure of information in the financial workpapers would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing expedited package delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. It analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to meet its minimum statutory obligations for cost coverage and contribution to institutional costs. It then sets its own rates for products similar to what the Postal Service offers its GEPS customers under that threshold and markets its ability to guarantee to beat the Postal Service on price for international expedited delivery services. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service out of the business-to-business and business-to-customer expedited delivery services markets for which the GEPS product is designed.

Identified harm: Public disclosure of the rate charts in the Annex would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: Customer A's negotiated rates are disclosed publicly on the Postal Regulatory Commission's website. Customer B sees the rates and determines that

there may be some additional profit margin between the rates provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the agreement to be added to the competitive products list. Customer B, which was offered rates identical to those published in Customer A's agreement, then uses the publicly available rate information to insist that it must receive lower rates than those the Postal Service has offered it, or it will not use the Postal Service for its expedited package service delivery needs.

Alternatively, Customer B attempts to extract lower rates only for those destinations for which it believes the Postal Service is the low-cost provider among all service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which it believes will still satisfy total cost coverage for the agreement. Then, the Customer uses other providers for destinations other than those for which it extracted lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement, such that it no longer meets its cost coverage requirement. Although the Postal Service could terminate the contract when it first recognized that the mailer's practice and projected profile were at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory Commission, would be sunk costs that would have a negative impact on the GEPS product overall.

Identified harm: Public disclosure of information in a GEPS contract and its financial workpapers would be used by the customer's competitors to its detriment.

Hypothetical: A firm competing with the customer obtains a copy of the unredacted version of a GEPS contract and financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the prices and the workpapers to assess the customer's underlying costs, volumes, and volume distribution for the corresponding delivery products. The competitor uses that information to (i) conduct market intelligence on the customer's business practices, and (ii) develop lower-cost alternatives using the customer's mailing costs as a baseline.

Identified harm: Public disclosure of any cost, volume and revenue data concerning this agreement that the Commission may require the Postal Service to file after the contract's expiration would give competitors a marketing advantage.

Hypothetical: A competitor could use any cost, volume and revenue data associated with this agreement, which the Commission may require the Postal Service to file in this docket after this agreement's expiration, to "qualify" potential customers. The competitor might focus its marketing efforts only on customers that have a certain mailing profile, and use information in the performance report to determine whether a customer met that profile.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for international expedited and parcels products (including both private sector integrators and foreign postal administrations), as well as their

consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof;

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
