Docket No. ACR2016

NOTICE OF THE UNITED STATES POSTAL SERVICE OF FILING
OF REVISED VERSION OF USPS-FY16-4 -- ERRATA
(March 15, 2017)

The Postal Service hereby gives notice of filing of a revised version of the material indicated below in the public annex in this proceeding:

USPS-FY16-4 FY 2016 Market Dominant Billing Determinants

A description of the revisions can be found at the end of the revised Preface included with the folder. This filing does not replace the original folder entirely. Instead, only one set of files (the Special Services files) among multiple sets of files is replaced, and the other unrevised sets are not resubmitted. Thus, only provided are a revised Preface, plus the set of Special Services files that are revised.

The revision to USPS-FY16-4 is to correct the billing determinants for Address Correction Service (ACS). Subsequent review of the original ACS data revealed that the data source used did not include all of the Automated ACS volume. Correcting the understatement results in a minor increase in ACS revenue, with a slightly larger

increase in the number of ACS transactions reported.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorney:
