FY 2022 Market Test Revenue Limitations

Unless the Commission grants an exemption, total revenues anticipated or in fact received by the Postal Service from a market test must not exceed \$10 million in any fiscal year, as adjusted by the change in the consumer price index for all urban consumers (CPI-U index) (\$10 Million Adjusted Limitation).¹

If the Commission grants an exemption, total revenues anticipated or in fact received by the Postal Service from a market test must not exceed \$50 million in any fiscal year, as adjusted by the change in the CPI-U index (\$50 Million Adjusted Limitation).²

The Commission must publish the \$10 Million Adjusted Limitation and \$50 Million Adjusted Limitation on its web site.³ The revenue limitations for FY 2022 are:

\$10 Million Adjusted Limitation: \$12,431,795

\$50 Million Adjusted Limitation: \$62,158,974

These revenue limitations are calculated consistent with the Commission's regulations in 39 C.F.R. §§ 3045.15 and 3045.16.

Explanation of Calculations

Revenue limitations applicable during FY 2022 reflect the average CPI-U change during FY 2021. Calculating the \$10 Million Adjusted Limitation and \$50 Million Adjusted Limitation involves the following steps.

First, a simple average CPI-U index was calculated for FY 2008 by summing the monthly CPI-U values from October 2007 through September 2008 and dividing the sum by 12. The result is 214.463.

Second, another simple average CPI-U index is similarly calculated for FY 2021 by summing the 12 monthly CPI-U values from October 2020 through September 2021 and dividing the sum by 12. The result is 266.616.

The formulas for calculating each revenue limitation are:

$$\text{\$10 Million Adjusted Limitation} = \$10,000,000 * (266.616/214.463)$$

$$\text{\$50 Million Adjusted Limitation} = \$50,000,000 * (266.616/214.463)$$

Results are rounded to the nearest dollar.
