

III. Backfitting and Issue Finality

This RG provides guidance on establishing and conducting an environmental dosimetry program that the NRC staff considers acceptable for monitoring direct radiation released into the unrestricted area and the controlled area of a licensed facility. The NRC regards these requirements as constituting information collection and reporting requirements. The NRC has long taken the position that information collection and reporting requirements are not subject to the NRC's backfitting and issue finality regulations in 10 CFR 50.109, 10 CFR 70.76, 10 CFR 72.62, 10 CFR 76.76, and 10 CFR part 52 (e.g., "Material Control and Accounting Methods," December 23, 2002 (67 FR 78130); and "Regulatory Improvements to the Nuclear Materials Management and Safeguards System," June 9, 2008 (73 FR 32453)). Therefore, the NRC has determined that its backfitting and issue finality regulations would not apply to this DG, if ultimately issued as a RG, because the RG does not include any provisions within the scope of matters covered by the backfitting provisions in 10 CFR parts 50, 70, 72, or 76, or the issue finality provisions of 10 CFR part 52.

Dated at Rockville, Maryland, this 11th day of October 2018.

For the Nuclear Regulatory Commission.

Thomas H. Boyce,

Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.

I. Introduction

On October 10, 2018, the Postal Service filed a notice of classification changes pursuant to Commission rule 39 CFR 3020.90.¹ The Postal Service seeks to correct the names of foreign countries that appear in various portions of the Mail Classification Schedule (MCS). Notice at 1. The changes are intended to take effect on January 27, 2019. *Id.*

II. Summary of Changes

The Postal Service proposes revisions to references to the names of a dozen foreign countries in the MCS, as well as a minor editorial change. The Postal Service states that "[t]he purpose of these minor changes is to correct the names of foreign countries . . . so that the MCS accurately reflects current country names." *Id.*

The Postal Service avers that the proposed changes satisfy the requirements of 39 CFR 3020.90 because the changes should result in a more accurate representation of the Postal Service's offerings, the Notice is filed more than 15 days prior to the intended effective date, and the changes merely update or correct country names without changing product offerings or pricing. *Id.* at 1-2.

III. Notice of Commission Action

Pursuant to 39 CFR 3020.91, the Commission has posted the Notice on its website and invites comments on whether the Postal Service's filings are consistent with 39 CFR 3020 subpart E. Comments are due no later than November 8, 2018. The public portions of these filings can be accessed via the Commission's website (<http://www.prc.gov>).

The Commission appoints Richard A. Oliver to represent the interests of the general public (Public Representative) in this docket.

IV. Ordering Paragraphs

It is ordered:

¹ Notice of United States Postal Service of Minor Classification Changes, October 10, 2018 (Notice).

1. The Commission establishes Docket No. MC2019-4 to consider matters raised by the Notice.

2. Comments by interested persons are due by November 8, 2018.

3. Pursuant to 39 U.S.C. 505, Richard A. Oliver is appointed to serve as an officer of the Commission (Public Representative) to represent the interests of the general public in this proceeding.

4. The Commission directs the Secretary of the Commission to arrange for prompt publication of this notice in the **Federal Register**.

By the Commission.

Stacy L. Ruble,
Secretary.
