SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–89291; File No. SR–CboeEDGA–2020–019]

Self-Regulatory Organizations; Cboe EDGA Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Fee Schedule Applicable to Its Equities Trading Platform To Introduce a Flat Charge for the Execution of MDOs That Are Entered With the QDP Instruction

July 10, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the

“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on July 1, 2020, Cboe EDGA Exchange, Inc. (the “Exchange” or “EDGA”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGA Exchange, Inc. (“EDGA” or the “Exchange”) is filing with the Securities and Exchange Commission (the “Commission”) a proposed rule change to amend the fee schedule applicable to its equities trading platform to introduce a flat charge for the execution of MDOs that are entered with the QDP instruction. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (http://markets.cboe.com/us/equities/regulation/rule_filings/edga/), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On June 4, 2020, the Commission approved the Exchange's proposed introduction of a new order instruction, Quote Depletion Protection (“QDP”), that is available for Midpoint Discretionary Orders (“MDOs”).³ QDP,

which was launched by the Exchange on June 10, 2020, is designed to provide enhanced protections to MDOs by tracking significant executions on the EDGA Book, and facilitating the ability of Users to avoid potentially unfavorable executions by preventing MDOs entered with the optional QDP instruction from exercising discretion to trade at more aggressive prices when QDP has been triggered. The Exchange now proposes to introduce a flat charge for the execution of MDOs that are entered with the QDP instruction.

EDGA operates pursuant to an inverted pricing model where orders that add liquidity are generally charged a fee, and orders that remove liquidity are generally provided a rebate. Unlike MDOs entered on the Exchange's affiliate, Cboe EDGX, Exchange, Inc. (“EDGX”), MDOs entered on the Exchange pursuant to EDGA Rule 11.8(e) are allowed to execute both on entry and also after resting on the EDGA Book. MDOs that are executed on the Exchange may therefore be subject to a fee, rebate, or in some instances free executions, depending on whether the order is executed as the adder or remover of liquidity, and whether or not the order is executed within its discretionary range. Specifically, an MDO that adds liquidity is currently charged a fee of \$0.00300 per share for securities priced at or above \$1.00.⁴ This fee applies to MDOs that are executed either within the order's discretionary range or at its displayed or non-displayed ranked price.⁵ Conversely, for MDOs that remove liquidity in securities priced at or above \$1.00, the Exchange's pricing depends on whether the order is executed within its discretionary range or at its displayed or non-displayed ranked price. Specifically, the Exchange currently provides a rebate of \$0.00240 per share for MDOs that remove liquidity at the order's displayed or non-displayed ranked price,⁶ but instead offers free executions for MDOs that remove liquidity within the order's discretionary range, in each case for securities priced at or above \$1.00.⁷ For all MDOs executed in securities priced below \$1.00, the Exchange provides free executions, regardless of whether the order is executed as the adder or remover of liquidity, or whether or not
