“Guidelines for 10 CFR 50.59 Evaluations,” Revision 1 (November 2000), NEI 96–07, Revision 1, provides guidance with a method that the staff considers acceptable for use in complying with the Commission’s regulations on the process by which licensees, under certain conditions, may make changes to their facilities and procedures as described in the FSAR (as updated) and conduct tests or experiments not described in the FSAR (as updated) without obtaining a license amendment pursuant to 10 CFR 50.90. RG 1.187, Revision 2, provides guidance on complying with the requirements of 10 CFR 50.59 when performing a digital instrumentation and control (I&C) modification. Specifically, it endorses, with clarifications, NEI 96–07, Appendix D, Revision 1, “Supplemental Guidance for Application of 10 CFR 50.59 to Digital Modifications” (ADAMS Accession No. ML20135H168). The NRC staff published Draft Guide (DG)–1356 for public comment on May 30, 2019 (84 FR 25077), which proposed to endorse NEI 96–07, Appendix D, in RG 1.187, Revision 2, with certain exceptions and additions.

The staff revised the RG in response to NEI's revisions to NEI 96–07, Appendix D; public comments on DG–1356; and two public meetings (ADAMS Accession Nos. ML19297G592 and ML20135H231). Based on the revised Appendix D, the staff removed the exception in the proposed Revision 2 of RG 1.187. The staff recognizes that the changes to RG 1.187, Revision 2, may be significant changes, beyond what a member of the public might have anticipated from these documents and public interactions. Therefore, the staff is providing an opportunity to submit additional, post-promulgation comments in accordance with Sections I and VII of this document.

Consequently, the NRC will evaluate any significant comments received on this RG and will consider revising the RG as a result of the comments and evaluation.

III. Additional Information

Proposed Revision 2 of RG 1.187 was issued with a temporary identification of Draft Regulatory Guide (DG)–1356. The NRC published a notice of the availability of DG–1356 in the Federal Register on May 30, 2019 (84 FR 25077) for a 45-day public comment period. The public comment period closed on July 15, 2019. Public comments on DG–1356 and the staff responses to the public comments are available in ADAMS under Accession No. ML20125A729.

IV. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

V. Submitting Suggestions for Improvement of Regulatory Guides

A member of the public may, at any time, submit suggestions to the NRC for improvement of existing RGs or for the development of new RGs to address new issues. Suggestions can be submitted on the NRC's public website at https://www.nrc.gov/reading-rm/doc-collections/reg-guides/contactus.html.

VI. Backfitting, Forward Fitting, and Issue Finality

Revision 2 of RG 1.187 endorses, with clarifications, NEI 96–07, Appendix D, Revision 1, which provides guidance on the application of the requirements of 10 CFR 50.59 to proposed digital modifications to nuclear power plant I&C systems. As explained in RG 1.187, Revision 2, licensees are not required to comply with the positions set forth in this regulatory guide. Therefore, RG 1.187, Revision 2, does not constitute backfitting as defined in 10 CFR 50.109, “Backfitting,” and as described in NRC Management Directive (MD) 8.4, “Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests”; constitute forward fitting as that term is defined and described in MD 8.4; or affect issue finality of any approval issued under 10 CFR part 52, "Licenses, Certificates, and Approvals for Nuclear Power Plants." If, in the future, the NRC were to impose a position in this RG 1.187, Revision 2, in a manner that would constitute backfitting or forward fitting or affect the issue finality for a part 52 approval, then the NRC would address the backfitting provision in 10 CFR 50.109, the forward fitting provision of MD 8.4, or the applicable issue finality provision in part 52, respectively.

VII. Request for Post-Promulgation Comment

The NRC is requesting post-promulgation comments on this RG. Comments on Revision 2 to RG 1.187 must be received by August 6, 2020. The NRC will publish a document in the Federal Register containing an evaluation of the significant comments and any revisions made to this RG as a result of the comments received.
