

assumptions applied in the cost estimate that, if altered, could result in dramatic increases (e.g. age adjustment of prevalence rates) or decreases (e.g., lower application rates) in the range of costs attributed to the rule. We further note that, in addition to being subject to various sources of uncertainty, the model applied by the Department for estimating the range of prospective impacts is further subject to the relative sensitivity of variation in the respective inputs to the model; for example, the model is highly sensitive to variation in the prevalence rates, such as that resulting from age adjustment.

While all three presumptive conditions covered by this rule are subject to these variations and the resulting impacts on projected obligations, VA considers the proposed rule's cost estimate to remain a reasonable baseline projection of the costs associated with this final rule. However, cost estimates provided and the assumptions used to develop them have no binding effect, and veterans who qualify for benefits on the basis of these presumptions will receive their benefits regardless of cost estimates used at this time. VA's discretionary and mandatory funding require explicit appropriations on an annual basis. Mandatory out-year estimates are evaluated for relevant current data as they become available and budget estimates are adjusted accordingly.

Unfunded Mandates

The Unfunded Mandates Reform Act of 1995 requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before issuing any rule that may result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any year. This final rule would have no such effect on State, local, and Tribal governments, or on the private sector.

Regulatory Flexibility Act

The Secretary of Veterans Affairs hereby certifies that this final rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. This final rule will not affect any small entities. Only individuals will be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), this final rule is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

Catalog of Federal Domestic Assistance Numbers and Titles

The Catalog of Federal Domestic Assistance program numbers and titles for this rule are 64.109, Veterans Compensation for Service-Connected Disability and 64.110, Veterans Dependency and Indemnity Compensation for Service-Connected Death.
