Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/esa/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the (write in name of appropriate federal agency) if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit them to the applicant, sponsor, or owner, as the case may be, for transmission to the (write in name of agency), the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the sponsoring government agency (or the applicant, sponsor, or owner).

POSTAL REGULATORY COMMISSION

39 CFR Part 3020

[Docket Nos. MC2009-8 and CP2009-9; Order No. 147]

Administrative Practice and Procedure, Postal Service

AGENCY: Postal Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Commission is adding a new international mail product to the Competitive Product List. This product is a contract between the United States Postal Service and Canada Post for inbound competitive services. It modifies and extends an existing agreement. The Commission's action is consistent with changes to applicable federal law and regulations and with a recent Postal Service request. Republication of the lists of market dominant and competitive products is also consistent with requirements in the law.

DATES: Effective December 19, 2008.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>.

FOR FURTHER INFORMATION CONTACT: Stephen L. Sharfman, General Counsel, 202-789-6820 and stephen.sharfman@prc.gov.

SUPPLEMENTARY INFORMATION: *Regulatory History*, 73 FR 70681 (November 21, 2008).

The Postal Service seeks to add a new product identified as Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services (MC2009-8 and CP2009-9) to the Competitive Product List. For the reasons discussed below, the Commission approves the Request.

I. Background

On November 13, 2008, the Postal Service filed a formal request pursuant to 39 U.S.C. 3642 and 39 CFR 3020.30 *et seq.* to add the Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services (Bilateral Agreement) to the Competitive Product List.¹ The Postal Service asserts that the Contractual Bilateral Agreement is a competitive product "not of general applicability" within the meaning of 39 U.S.C. 3632(b)(3). This Request has been assigned Docket No. MC2009-8.

The Postal Service contemporaneously filed notice, pursuant to 39 U.S.C. 3632(b)(3) and 39 CFR 3015.5, that the Governors have established prices and classifications not of general applicability for inbound competitive services as reflected in the Bilateral Agreement. More specifically, the Bilateral Agreement, which has been assigned Docket No. CP2009-9, governs the exchange of Inbound Surface Parcel Post from Canada.

In support of its Request, the Postal Service filed a redacted version of the Governors' Decision establishing prices for the Bilateral Agreement. Attached to the Governors' Decision are proposed Mail Classification Schedule language; a redacted version of management's analysis of the Bilateral Agreement; certification of compliance with 39 U.S.C. 3633(a); certification of the Governors' vote;² and a Statement of Supporting Justification as required by 39 CFR 3020.32.³ In addition, the Postal

² See Attachment 1 to the Request.

³ See Attachment 2 to the Request.

Service indicates that it filed an unredacted copy of the Governors' Decision, the Bilateral Agreement, and other supporting documents designed to establish compliance with 39 CFR 3015.5 under seal. Request at 2, n.2.

In the Statement of Supporting Justification, Lea Emerson, Executive Director, International Postal Affairs, asserts that "[t]he addition of the [Bilateral] Agreement as a competitive product will enable the Commission to verify that the agreement covers its attributable costs and enables competitive products, as a whole, to make a positive contribution to coverage of institutional costs." *Id.* at 2. W. Ashley Lyons, Manager, Corporate Financial Planning, Finance Department, certifies that the contract complies with 39 U.S.C. 3633(a). Request, Attachment C. He observes that the Bilateral Agreement "should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs." *Id.*

The Postal Service filed much of the supporting materials, including the Governors' Decision and the Bilateral Agreement, under seal. It maintains that the Bilateral Agreement, related financial information, and the Governor's Decision should remain under seal as they contain pricing, cost, and other information that are highly confidential. Request at 2.⁴

The Postal Service has an existing bilateral agreement with Canada Post which is set to expire December 31, 2008. *Id.* at 3. The new prices and classifications modify the current agreement, extend it for 1 year, and are scheduled to take effect January 1, 2009, or "after filing with and review by the Postal Regulatory Commission, whichever, is later." Request, Attachment 1, at 2.

In Order No. 134, the Commission gave notice of the two dockets, appointed a public representative, and provided the public with an opportunity to comment.⁵ Pursuant to 39 CFR 3015.6, Chairman's Information Request No.1 was issued November 24, 2008.

⁴ The Postal Service indicates that the materials filed under seal constitute a subset of the overarching agreement between the parties, representing the parties' agreement concerning inbound competitive services. The Postal Service further indicates that the parties anticipate finalizing "this and related agreements by mid-December, and any lingering details will not affect the rates, classification, or other fundamental basis for this Request and Notice." Request at 5, n.12.

⁵ PRC Order No. 134, Notice and Order Concerning Bilateral Agreement with Canada Post For Inbound Competitive Services, November 18, 2008 (Order No. 134).

The Postal Service filed its response on December 1, 2008 as requested.⁶

II. Comments

Comments were filed by the Public Representative.⁷ No filings were submitted by other interested parties. The Public Representative's comments focus principally on confidentiality and pricing under the contract. Public Representative Comments at 3–4.

The Public Representative states that a sufficient rationale for maintaining the confidentiality of the documents under seal has been provided by the Postal Service. He reviewed the cost savings measures for the contract and determined that the contract is advantageous to the Postal Service and beneficial to the general public. *Id.* He notes that the Commission's 2007 Annual Compliance Determination (ACD) found that Inbound Surface Parcel Post under the bilateral agreement with Canada incurred a loss and the Postal Service is attempting to remedy this issue with this agreement.⁸ Additionally, he observes that the pay-for-performance standards will improve the performance of both postal administrations. He concludes, *inter alia*, that the contract appears to meet each element of 39 U.S.C. 3633(a). *Id.* at 2.

III. Commission Analysis

The Commission has reviewed the contract, the financial analysis provided under seal that accompanies it, the additional information filed by the Postal Service in response to the Chairman's Information Request, and the comments filed by the Public Representative.

Statutory requirements. The Commission's statutory responsibilities in this instance entail assigning the Bilateral Agreement with Canada Post for Inbound Competitive Services to either the Market Dominant Product List or to the Competitive Product List. 39 U.S.C. 3642. As part of this responsibility, the Commission also

⁷ Public Representative Comments in Response to United States Postal Service Request to add Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services, to the Competitive Product List, and Notice of Filing (Under Seal) the Enabling Governors' Decision and Agreement, December 3, 2008 (Public Representative Comments).

⁸ In the ACD summary of International Mail, issued March 27, 2008, the Commission concludes that revenue for competitive Inbound Surface Parcel Post (at non-UPU rates) did not cover its corresponding attributable costs by a relatively small amount.

reviews the proposal for compliance with the Postal Accountability and Enhancement Act (PAEA) requirements. This includes, for proposed competitive products, a review of the provisions applicable to rates for competitive products. 39 U.S.C. 3633.

Product list assignment. In determining whether to assign the Bilateral Agreement with Canada Post for Inbound Competitive Services as a product to the Market Dominant Product List or the Competitive Product List, the Commission must consider whether

the Postal Service exercises sufficient market power that it can effectively set the price of such product substantially above costs, raise prices significantly, decrease quality, or decrease output, without risk of losing a significant level of business to other firms offering similar products.

39 U.S.C. 3642(b)(1). If so, the product will be categorized as market dominant. The competitive category of products shall consist of all other products.

The Commission is further required to consider the availability and nature of enterprises in the private sector engaged in the delivery of the product, the views of those who use the product and the likely impact on small business concerns. 39 U.S.C. 3642(b)(3).

In Docket No. RM2007–1, Order No. 43, the Commission determined that Inbound Surface Parcel Post shipments tendered at negotiated rates are appropriately classified as competitive. The Canada Post Bilateral Agreement falls within this category.

The Postal Service asserts that its bargaining position is constrained by the existence of other shippers who can provide similar services, thus precluding it from taking unilateral action to increase prices without the risk of losing volume to private companies. Request, Attachment 2, at 2–3. The Postal Service also contends that it may not decrease quality or output without risking the loss of business to competitors that offer similar expedited delivery services. *Id.* Finally, the Postal Service states that the market for international parcel delivery services is highly competitive and that the agreement provides a benefit to Canada Post's and the Postal Service's small business customers by providing an additional option for shipping articles between the United States and Canada. It concludes that there should be little, if any negative impact on small business. *Id.* at 4.

No commenter opposes the proposed classification of the Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services, as competitive.

Having considered the statutory requirements and the support offered by the Postal Service, the Commission finds that the Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services is appropriately classified as a competitive product and should be added to the Competitive Product List.

Cost considerations. The Postal Service's filing seeks to establish a new product for Inbound Surface Parcel Post from Canada. The Postal Service asserts the rates provide financial benefits for inbound competitive services which are better than those that would exist if the rates used are set by the Universal Postal Union (UPU) treaty. Request, Attachment 1B, at 1.

The Postal Service contends, as mentioned in the comments of the Public Representative, adding the Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services product will result in better cost coverage for Inbound Surface Parcel Post and address the Commission's concern about cost coverage as expressed in the Annual Compliance Determination for Fiscal Year 2007. The Commission's summary and findings for International Mail concluded that revenues for corresponding competitive Inbound Surface Parcel Post at non-UPU rates did not provide revenues that covered attributable costs. The Postal Service states that its financial analysis of the new prices negotiated in this agreement shows that this contract covers its attributable costs, and does

not result in subsidization of competitive products by market dominant products and should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs. *Id.*, Attachment 1C, at 1.

Based on the data submitted and the comments received, the Commission finds that Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services should cover its attributable costs (39 U.S.C. 3633(a)(2)), should not lead to the subsidization of competitive products by market dominant products (39 U.S.C. 3633(a)(1)), and should have a positive effect on competitive products' contribution to institutional costs (39 U.S.C. 3633(a)(3)). Thus, an initial review of the proposed Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services indicates that it comports with the provisions applicable to rates for competitive products.

It is our understanding that this contract extension will terminate December 31, 2009. If this is not the case, the Postal Service shall promptly notify the Commission when the contract terminates, but no later than the actual termination date. The Commission will then remove the contract from the Mail Classification Schedule at the earliest possible opportunity.

In conclusion, the Commission approves the Canada Post-United States Postal Service Contractual Bilateral

Agreement for Inbound Competitive Services as a new product. The revision to the Competitive Product List is shown below the signature of this Order and is effective upon issuance of this Order.

IV. Ordering Paragraphs

It is Ordered:

1. Canada Post-United States Postal Service Contractual Bilateral Agreement for Inbound Competitive Services (MC2009-8 and CP2009-9) is added to the Competitive Product List as a new product under International Inbound Surface Parcel Post (at non-UPU) rates.

2. The Secretary shall arrange for the publication of this Order in the **Federal Register**.

National Ambient Air Quality Standards for Lead

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correcting amendment.

SUMMARY: The EPA issued a final rule on November 12, 2008 (effective date January 12, 2009) that revised the National Ambient Air Quality Standard (NAAQS) for lead (Pb) and associated monitoring requirements. This document makes a minor correction to the November 12, 2008, action to correct a typographical error in the regulatory text for the rule.

DATES: This correction is effective January 12, 2009.

FOR FURTHER INFORMATION CONTACT: Mr. Kevin Cavender, Air Quality Assessment Division (C304–06), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541–2364; fax number: (919) 541–1903; e-mail address: *Cavender.kevin@epa.gov*.

SUPPLEMENTARY INFORMATION:

Background

The EPA issued a final rule on November 12, 2008 (effective date January 12, 2009) that revised the NAAQS for Pb and associated Pb monitoring requirements. As part of the Pb monitoring requirements, monitoring agencies are required to develop a plan for establishing Pb monitoring sites in accordance with the requirements of appendix D of Part 58. A number of requirements for this plan were listed including the identification of (1) the designation of any Pb monitors as either source-oriented or non-source-oriented according to Appendix D to 40 CFR part 58, (2) any source-oriented monitors for which a waiver has been requested or

granted by the EPA Regional Administrator as allowed for under paragraph 4.5(a)(ii) of Appendix D to 40 CFR part 58, and (3) any source-oriented or non-source-oriented site for which a waiver has been requested or granted by the EPA Regional Administrator for the use of Pb-PM₁₀ monitoring in lieu of Pb-TSP monitoring as allowed for under paragraph 2.10 of Appendix C to 40 CFR Part 58. These requirements were correctly included in the amended regulatory text for 40 CFR Part 58 in the final rule. In describing the amendments to the existing regulatory text, EPA accurately included a reference adding paragraph 58.10 (b)(9) (which contains the first requirement identified above). Although the notice included the text of paragraphs 58.10 (b)(10) and (b)(11) (which contain the second and third requirements identified above), EPA inadvertently failed to specify that these paragraphs were also being added to the existing regulatory text in the amendatory language.

Need for Correction

As published, the regulatory text in the final regulation contains a minor error that, if not corrected, would result in an error in the publication of the regulatory amendment in the Code of Federal Regulations. This action merely addresses an error in describing how the CFR regulatory text is amended, and not the amended regulatory text itself. Thus it is proper to issue this action with out notice and comment. Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an Agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the Agency may issue a rule without providing notice and an opportunity for public comment. We have determined that there is good cause for making this action final without prior proposal and opportunity for comment because the change to the rule is a minor technical correction, is non-controversial, and does not substantively change the agency actions taken in the final rule. We similarly have determined there is good cause for making this rule effective January 12, 2009, because that is the same day the revisions to the Pb NAAQS and the monitoring requirements become

effective under the rule published November 12, 2008.

Corrections of Publication

The EPA issued a final rule on November 12, 2008 that revised the NAAQS for Pb and associated monitoring requirements. Instruction 15 on how the Code of Federal Regulations is amended inadvertently failed to identify two paragraphs as amendments to 40 CFR 58.10. As published in the November 12, 2008 final rule, instruction 15 reads as follows:

“15. Section 58.10, is amended by added paragraph subsections (a)(4) and adding paragraph (b)(9) to read as follows:”

In FR Doc. E8–25654 published November 12, 2008 (73 FR 66964), make the following correction. On page 67059, in the center column, amendatory instruction 15 is corrected to read as follows:

“15. Section 58.10, is amended by adding paragraph (a)(4) and adding paragraphs (b)(9) through (b)(11) to read as follows:”
