Main county—A county that acts as an employment center within a CBSA that has a core with a population of at least 2.5 million. A main county serves as the basis for delineating a metropolitan division.

Metropolitan Division—A county or group of counties within a CBSA that contains an Urban Area with a population of at least 2.5 million. A metropolitan division consists of one or more main/secondary counties that represent an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA)—A Core Based Statistical Area associated with at least one Urban Area that has a population of at least 50,000. Micropolitan Statistical Area (μSA)—A Core Based Statistical Area associated with at least one Urban Area that has a population of at least 10,000, but less than 50,000. The μSA comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Outlying county—A county that qualifies for inclusion in CBSA on the basis of commuting ties with the CBSA's central county or counties.

Outside Core Based Statistical Areas—Counties that do not qualify for inclusion in a CBSA.

Principal City—The largest city of a CBSA, plus additional cities that meet specified statistical criteria.

Secondary county—A county that acts as an employment center in combination with a main county or another secondary county within a CBSA that has a core with a population of at least 2.5 million. A secondary county may serve as the basis for delineating a metropolitan division, but only when combined with a main county or another secondary county.

Urban Area—A statistical geographic entity delineated by the Census Bureau, which represents densely developed territory, and encompasses residential, commercial, and other non-residential urban land uses. For purposes of delineating MSAs, at least one Urban Area of 50,000 or more population is required; for purposes of delineating μSAs, at least one Urban Area of 10,000 to 49,999 population is required.
