

produce any radiological effluent emissions of note. If an effluent were released, it would generally be constrained by the NRC's constraint for air emissions, which is 10 mrem/yr total effective dose equivalent (TEDE), and/or use the 10 CFR part 20, Appendix B, "Annual Limits on Intake (ALIs) and Derived Air Concentrations (DACs) of Radionuclides for Occupational Exposure; Effluent Concentrations; Concentrations for Release to Sewerage," effluent limit, which is 50 mrem/yr TEDE. Both of these limits are considerably less than the 100 mrem/yr TEDE dose limit for members of the public.

In terms of the potential for DOE's ongoing WVDP activities to impact the retained premises of the WNYNSC, any unanticipated events or potential releases that could impact any areas outside the WVDP, including the retained premises, will continue to be addressed under DOE's radiation protection programs and requirements for the WVDP, as specified by the WVDP and other applicable regulations. Because the proposed NYSERDA Radiation Protection Program is not applicable to the WVDP areas of the site, DOE radiation protection provisions will govern any decommissioning or demolition impacts on the retained premises as part of DOE's remediation efforts.

#### *Environmental Impacts of the Proposed Action*

The NRC completed its evaluation of the proposed action and determined that the proposed updates to the NYSERDA Radiation Protection Program for the retained premises of the WNYNSC would not significantly increase the probability or consequences of any accidents. In addition, the proposed action would not significantly change the types and the amounts of any effluents that may be released offsite. There would also be no significant construction or land disturbance activities or increase in occupational or public radiation exposure. Therefore, there would be no significant radiological environmental impacts associated with the proposed action.

The proposed action would not impact land, air, or water resources, including biota. In addition, the proposed action would not result in any socioeconomic or environmental justice impacts or impacts to historic and cultural resources. Therefore, there would also be no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that the proposed action (license amendment) would not result in significant environmental impacts. Details of the NRC's evaluation will be provided in a letter to the licensee approving the license amendment.

#### *Environmental Impacts of the Alternatives to the Proposed Action*

As an alternative to the proposed action, the NRC staff considered denying the proposed action (*i.e.*, the "no-action" alternative). Under the no-action alternative, the NRC would not approve the NYSERDA Radiation Protection Program for the retained premises of the WNYNSC or the license amendment request because the associated regulatory requirements have not been met. Consequently, there would be no change to the current radiation protection requirements applicable to the retained premises, and NYSERDA would continue to face challenges with conducting maintenance activities under an outdated Radiation Protection Program. If the NRC was unable to approve the NYSERDA Radiation Protection Program because the regulatory requirements were not met, then the licensee would have to take the necessary actions to ensure the applicable radiation protection regulations are met.

#### *Alternative Use of Resources*

The proposed action would not involve the use of any resources.

#### *Agencies and Persons Consulted*

The staff consulted with the State of New York regarding the environmental impact of the proposed action on September 2, 2021. The State of New York responded on September 17, 2021 with no comments (ADAMS Accession No. ML21281A089).

### **III. Finding of No Significant Impact**

Based on its review of the proposed action, and in accordance with the requirements in 10 CFR part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions," the NRC staff has determined that pursuant to 10 CFR 51.31, "Determinations based on environmental assessment," preparation of an environmental impact statement is not required for the proposed action and pursuant to 10 CFR 51.32, "Finding of no significant impact," a FONSI is appropriate.

On the basis of the information presented in this EA, the NRC concludes that the proposed action would not cause any significant

environmental impact and would not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

Other than the licensee's letter dated March 11, 2020, as supplemented, there are no other environmental documents associated with this review. These documents are available for public inspection as previously indicated.

## **POSTAL REGULATORY COMMISSION**

[Docket Nos. MC2022-16 and CP2022-17]

### **New Postal Product**

**AGENCY:** Postal Regulatory Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

**DATES:** *Comments are due:* November 8, 2021.

**ADDRESSES:** Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

**FOR FURTHER INFORMATION CONTACT:** David A. Trissell, General Counsel, at 202-789-6820.

### **SUPPLEMENTARY INFORMATION:**

#### **Table of Contents**

- I. Introduction
- II. Docketed Proceeding(s)

#### **I. Introduction**

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the

modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.<sup>1</sup>

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s) that the Postal Service states concern competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3040, subpart B. Comment deadline(s) for each request appear in section II.
