

III. Finding of No Significant Impact

The NRC staff has prepared this final EA in support of the proposed action to issue a license to Pa'ina Hawaii for the possession and use of sealed radioactive sources in an underwater irradiator for the production and research irradiation of food, cosmetic, and pharmaceutical products. On the basis of this EA, NRC has concluded that there are no significant environmental impacts and the license application does not warrant the preparation of an Environmental Impact Statement. Accordingly, it has been determined that a Finding of No Significant Impact is appropriate.

RAILROAD RETIREMENT BOARD

Agency Information Collection Activities: Proposed collections; Comment Request

Summary: In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) publishes periodic summaries of proposed data collections. The information collections numbered below are pending at RRB and will be submitted to the Office of Management and Budget (OMB) 60 days from the publication date of this notice.

Comments are Invited on: (a) Whether the proposed information collection(s) is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

1. *Title and Purpose of Information Collection;* Railroad Service and Compensation Reports/System Access Application; OMB 3220-0008 Under Section 9 of the Railroad Retirement Act (RRA) and Section 6 of the Railroad Unemployment Insurance Act (RUIA) the Railroad Retirement Board (RRB) maintains for each railroad employee, a record of compensation paid to that employee by all railroad employers for whom the employee worked after 1936.

This record, which is used by the RRB to determine eligibility for, and amount of, benefits due under the laws it administers, is conclusive as to the amount of compensation paid to an employee during such period(s) covered by the report(s) of the compensation by the employee's railroad employer(s), except in cases when an employee files a protest pertaining to his or her reported compensation within the statute of limitations cited in Section 9 of the RRA and Section 6 of the RUIA.

To enable the RRB to establish and maintain the record of compensation, employers are required to file with the RRB, in such manner and form and at such times as the RRB prescribes, reports of compensation of employees. Railroad Employers' Reports and Responsibilities are prescribed in 20 CFR 209. The RRB currently utilizes Form BA-3a, Annual Report of Compensation and Form BA-4, Report of Creditable Compensation Adjustments, to secure required information from railroad employers. Form BA-3a provides the RRB with information regarding annual creditable service and compensation for each individual who worked for a railroad employer covered by the RRA and RUIA in a given year. Form BA-4 provides for the adjustment of any previously submitted reports and also the opportunity to provide any service and compensation that had been previously omitted. Requirements specific to Forms BA-3a and BA-4 are prescribed in 20 CFR 209.8 and 209.9.

Employers currently have the option of submitting the reports on the aforementioned forms, electronically via the Internet utilizing the RRB's Employer Reporting System (ERS) (for Form BA-4), or in like format on magnetic tape cartridges, CD-ROM's and PC diskettes.

The RRB proposes major changes to the information collection. They are intended to streamline the employer reporting process, ensuring more accurate and timely reporting, while eliminating or reducing the employer reporting burden associated with several other RRB information collections.

Form BA-3a will be significantly revised and renamed Form BA-3, Annual Report of Compensation. Revisions to proposed Form BA-3 include the expansion of existing data fields to allow for: the reporting of amounts for Tier I and Tier II compensation greater than \$99,999.99 (the annual creditable maximum for Tier I will exceed that amount within the next two years), RUIA daily pay amounts of more than \$99.99, 4-digit year fields and an employee's complete
