Dear Deputy Assistant Secretary Cook:

Pursuant to 39 U.S.C. § 407 (c) and your letter of August 28, 2012, the Postal Regulatory Commission hereby submits its views on whether proposals to amend market dominant rates or classifications that will be considered during Universal Postal Union (UPU) Postal Operations Council (POC) sessions are consistent with the statutory criteria of subchapter 1 of chapter 36 of title 39, U.S. Code.

The Commission has reviewed all proposals for the upcoming POC session that are currently available on the UPU's website. The Commission has determined that none of these proposals requires a view from the Commission. Should any proposal arise between now and the end of the POC session that requires a view, the Commission will provide it to you at the earliest opportunity.

The Commission wishes the U.S. delegation fruitful and productive negotiations during the upcoming POC session.

Sincerely,

A handwritten signature in blue ink that reads "Ruth Y. Goldway".
